—The dry cold weather of the early winter months is productive of a great deal of croup among children. Mothers should be on the lookout for it, and be prepared to arrest it as soon as the first symptoms appear. True croup never comes without a warning; a day or two before the attack the child will become hoarse, and that symptom is soon followed by a peculiar, rough cough. If Chamberlain's Cough Remedy is given as soon as this hoarseness or cough appears, all danger and anxiety may be avoided. It has never failed, even in the most severe cases. There is no danger in giving the Remedy for it contains no injurious substance. For Sale by G. C. Thaxter.

A PROPHECY.

Good Years for Crops and "Booms" to be Followed by Disaster.

New York, Jan. 14.—Samuel Deane, the well-known prophet, prints in the Real Estate Record his forecasts for 1889, 1890 and 1891. Among other things he says:

"The year 1889 opens with cheerful hopes. Our crops during the past year have been abundant.

The prospect of an increased foreign demand for our surplus grain and provisions at advanced prices gives the farmers renewed energy. With fair early crops business and prices will show considerable improvements in the Spring months.

We are at the beginning of a prosperous period, and the outlook is for a decided improvement and advance in the price of iron, railroad stocks and all other manufactured commodities. I predict that the price of iron will be advanced and that the average price of '89 will be higher than the average of '88, and that there will be a wonderful advance in the price of iron stocks and all iron products and commodities in 1890. All business will be prosperous. It will be a good year for crops and a 'boom' year. In the beginning of 1891 business will be at its height.

There will be a great business inflation. Pig-iron will bring \$50 per ton. I predict that there will be a panic in 1881. This panic will be a commercial and financial revolution, and will be followed by a long downward sweep of prices.

On motion a formal invitation by the Board to the State Officers and members of the Legislature to visit Reno at an early day and inspect the State's property, under control of the State Board of Agriculture was adopted.

Directors Powning, Bailey, Marzen and Evans were appointed a committee to represent the society in of legislation.

Directors Evans, W. O. H. Martin and T. K. Hymers were appointed by the Board to solicit funds for the purpose of defraying expenses incurred in properly receiving and entertaining the Legislators and State officers who might become the guests of the Society.
